

Makerspace

Ångström Makerspace

UPPSALA
UNIVERSITET

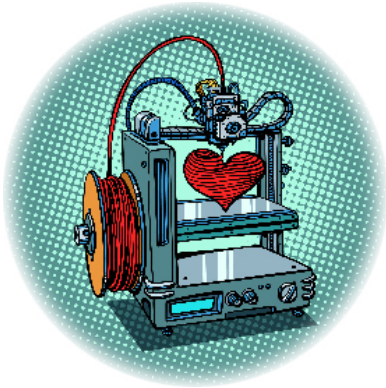

Welcome to Ångström Makerspace!

The workspace is open for all students and employees at Uppsala University. Here you can use our 3D-printers, Arduino, sewing machine and other tools. To start using our 3D-printers you need to go our introduction course to get a license (find the course [here](#)). For all the other equipments you can start your project right away!

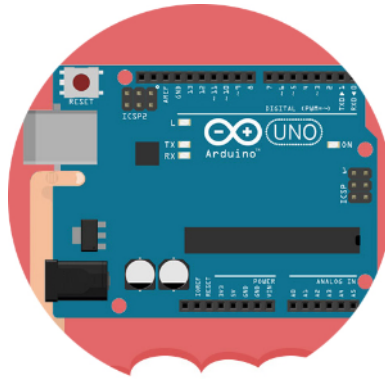

How do I get access to the room? - All students and employees have access through their campus card.

What are the opening times? - Ångström Makerspace have the same opening times as the university, 05:00-00:00.

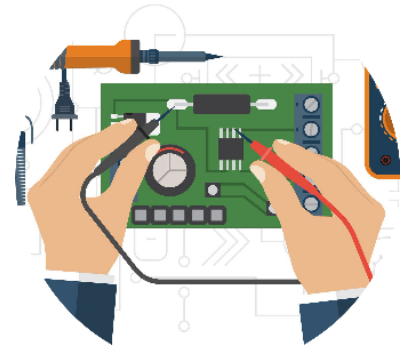

How do I get in contact with you? - You can reach us by [email](#), [instagram](#) or [facebook](#).
